

## **Press Release – 2014 Draft Financial Statements**

The Board approves the 2014 results: the 2014 consolidated financial statements basically confirm the results appearing in the Interim Management Report at 31 December 2014 approved on 13 February 2015

In 2014, the Cairo Communication Group continued to achieve positive results in its traditional segments (magazine publishing and advertising) and worked on strengthening the results of the cost rationalization measures in the TV publishing segment (La7) implemented in 2013:

- consolidated gross revenue amounted to Euro 277.6 million (Euro 284.7 million in 2013)
- consolidated gross operating profit (EBITDA) and operating profit (EBIT) increased to Euro 28.2 million and Euro 23 million (+5.6% and +8.9% versus the same results of current operations in 2013)
- consolidated profit rose sharply to Euro 23.8 million (+24.9% versus consolidated profit from current operations of Euro 19 million in 2013)
- TV publishing segment (La7) generated a positive gross operating profit (EBITDA) of approximately Euro 9 million (versus a gross operating loss of Euro 25.4 million in the January-December twelve-month period of 2013)
- gross operating profit (EBITDA) and operating profit (EBIT) from the magazine publishing segment increased to Euro 13.8 million and Euro 12.5 million (+11.2% and +13.1% versus 2013)
- a dividend of Euro 0.27 per share will be proposed at the Shareholders' Meeting

Milan, 13 March 2015: at its meeting today, the Board of Directors of Cairo Communication reviewed and approved the draft financial statements at 31 December 2014.

The 2014 consolidated financial statements basically confirm the results appearing in the Interim Management Report at 31 December 2014 approved on 13 February 2015.

In 2014, the Cairo Communication Group, despite the high degree of uncertainty of the economic context in general and specifically of its relevant markets (advertising and publishing):

- strengthened the results of the cost rationalization measures in the TV publishing segment (La7) implemented during the eight months of activity in 2013, succeeding in achieving also in 2014 a positive gross operating profit (EBITDA) of approximately Euro 9 million, while in the January December twelve-month period of 2013 (when La7 in the first four months had not been included yet in the scope of consolidation of the Cairo Communication Group), gross operating loss of La7 had amounted to Euro 25.4 million;
- strengthened the results of "F", "Settimanale Nuovo" and "Settimanale Giallo", confirmed the high circulation levels of the other publications, and worked on improving the levels of efficiency reached in containing costs in the magazine publishing segment (production, publishing and distribution);
- kept advertising revenue levels high, despite the general market trend;
- achieved highly positive results in its traditional segments (magazine publishing and advertising), despite the general economic and financial context and relevant market trend, particularly in the

- magazine publishing segment, where gross operating profit (EBITDA) and operating profit (EBIT) came to Euro 13.8 million and Euro 12.5 million, up by 11.2% and 13.1% versus 2013;
- took part with the subsidiary Cairo Network in the tender procedure opened by the Ministry of Economic Development for the assignment of rights to use TV frequencies for digital terrestrial broadcasting systems, submitting its binding bid and winning the rights to use a lot of frequencies ("Mux") for a period of 20 years.

To provide a better understanding of the figures for comparative purposes, it should be noted that the 2013 income statement included the results of La7 S.r.l., which was consolidated on 1 May 2013, with regard only to the May-December eight-month period of 2013.

In **2014**, consolidated gross revenue came to approximately Euro 277.6 million (Euro 284.7 million in 2013). The consolidation of La7 S.r.l. for the entire twelve months (as compared to the May-December eight-month period of 2013 included in the same period last year) brought no significant change to revenue, since over 90% of La7 S.r.l. revenue comes from advertising sales generated by Cairo Communication under the advertising concession contract in effect before the acquisition. Consolidated gross operating profit (EBITDA) and operating profit (EBIT), amounting to approximately Euro 28.2 million and Euro 23 million, grew by 5.6% and 8.9% versus the same results of current operations in 2013 (Euro 26.7 million and Euro 21.1 million). Consolidated profit, amounting to approximately Euro 23.8 million, rose sharply by about 24.9% versus the current operations in 2013 (Euro 19 million). In 2013, profit (Euro 74.2 million) included Euro 55.1 million, that is, non-recurring income and charges from the acquisition of La7.

#### Specifically,

- in the **TV publishing segment** (**La7**), the Group worked on strengthening the results of the rationalization and cost-curbing measures implemented in 2013. Gross operating profit (EBITDA) and operating profit (EBIT) came to approximately Euro 9 million and Euro 6.2 million. At 31 December 2014, the net financial position of La7 came to Euro 106.5 million and the change versus 31 December 2013 (Euro 115.8 million) is attributable mainly to the dynamics of net working capital and to investments in the purchase of TV rights. Operating profit (EBIT) benefited in the consolidated financial statements from lower amortization and depreciation of Euro 18.2 million, due to the writedown of tangible and intangible assets made in 2013 in the purchase price allocation of the investment. In the January-December twelve-month period of 2013 when La7 had not been included yet for the entire period in the scope of consolidation of the Cairo Communication Group gross operating loss had amounted to approximately Euro 25.4 million. In 2014, La7's average all-day share was 3.25% and 3.84% in prime time (from 8:30 PM to 11:30 PM), with a high-quality target audience. La7d's share maintained its level at 0.5%.
- in the **magazine publishing segment**, gross operating profit (EBITDA) and operating profit (EBIT) came to Euro 13.8 million and Euro 12.5 million, up by 11.2% and 13.1% versus 2013 (Euro 12.4 million and Euro 11.1 million). The year under review confirmed the excellent circulation results, with revenue at Euro 73.4 million (Euro 74.8 million in 2013). Regarding weeklies, with over 1.8 million average copies sold in the January-December twelve-month period of 2014, the Group retains its position as the leading publisher in copies of weeklies sold at newsstands, with an over 25% market share;
- in the **advertising segment**, gross operating profit (EBITDA) and operating profit (EBIT) came to Euro 5.2 million and Euro 4 million (Euro 10.6 million and Euro 8 million in 2013). In 2014, gross advertising sales on La7 and La7d channels amounted to Euro 152.9 million (Euro 157.5 million in 2013).

The **consolidated** <u>net financial position</u> at 31 December 2014 came to a positive figure of approximately Euro 124 million (approximately Euro 172.9 million at 31 December 2013). The change in the net financial position versus 31 December 2013 is mainly due (i) to the investment made by Cairo Network (Euro 31.6 million plus accessory costs) in the acquisition of the rights to use TV frequencies, and (ii) to the distribution of dividends approved by the Shareholders' Meeting on 29 April 2014 (0.27 Euro per share, for a total of Euro 21.2 million). The bank loan of Euro 25 million, granted by Unicredit S.p.A. and used by Cairo Network to acquire the Mux, is secured by a guarantee issued by the parent Cairo Communication, and calls for the payment of an interest rate equal to the 3-month Euribor plus 225 basis points and certain constraints (negative pledges) and commitments (covenants) on the part of the company, which are typical of these transactions.

In light of the results achieved, at the Shareholders' Meeting, the Board of Directors will propose the distribution of a dividend of Euro 0.27 per share, inclusive of tax, with coupon detachment date (coupon no. 9) on 11 May 2015 and payable on 13 May 2015 (record date 12 May 2015).

In 2015, the Cairo Communication Group will continue to:

- pursue the development of its traditional segments (magazine publishing and advertising sales). Despite the economic and competitive backdrop, given the high quality of the publications and of the media under concession, the Group considers it a feasible target to continue to achieve positive operating results:
- work on strengthening the results of the rationalization and cost-curbing measures achieved in the TV publishing segment in 2013 and 2014.

However, the evolution of the general economic situation could affect the full achievement of these targets.

The Financial Reporting Manager of Cairo Communication S.p.A., Marco Pompignoli, declares, pursuant to paragraph 2 of Article 154-bis of the Consolidated Finance Law, that the accounting information contained in this document is consistent with the underlying accounting documents, books and records.

Cairo Communication is one of the leading groups in the weekly magazine, TV publishing and advertising sales segments, recognized as one of the first to have developed a multimedia sales approach, beginning with magazine and expanding later into free, digital and pay TV and the Internet

#### **Alternative performance indicators**

In order to provide a better reading of the financial performance of the Cairo Communication Group, besides of the conventional IFRS financial indicators, alternative performance indicators appear in this press release, but must not be considered to replace those of the IFRS.

The indicators are:

• Gross operating profit (EBITDA): adopted by Cairo Communication as a target to monitor internal management and for public presentations (for analysts and investors), representing a unit of measurement to assess operating performance of the Group and Parent Company, alongside operating profit (EBIT). These indicators are calculated as follows:

## Profit from continuing operations, pre-tax

- +/- Net finance income
- +/- Share in associates

## **EBIT- Operating profit**

- + Amortization and depreciation
- + Bad debt impairment losses
- + Provisions for risks

## EBITDA - Operating profit, before amortization, depreciation, write-downs and impairment losses.

The Cairo Communication Group also considers **net financial position** as a valid indicator of the Group's ability to meet financial obligations, both current and future. As seen in the table included in this press release, which details the equity figures used for the calculation of Group net financial position, this figure includes cash and other cash equivalents, bank deposits, securities and other current financial assets, reduced by current and non-current bank borrowings
